SUPPORT SERVICES

Student Support

At Bedford College, we aim to provide a warm, friendly environment for students. Most students find that they make friends very quickly and get support from teachers, admin staff and other students. However, some students may require additional assistance, which is available through our Learning Support coordinator. In addition, we offer English support for those international students who may need further clarification or explanation of work or assignments.

Academic Counselling

Bedford College will make every effort to assist students who require help in the learning process. Advice on academic issues can be provided by individual teachers and the Dean of Faculty.

Personal Counselling

Some students may experience unexpected personal problems when studying – particularly if the student is new to Sydney and living away from home, family and friends – and this is where personal counselling may help. Counselling can be for a variety of reasons, such as difficulty structuring a study routine, problems adjusting to living away from home or other personal issues. The College will be able to make referrals to counselling services where required.
